9th ICOWOBAS

9th International Conference and Workshop on Basic and Applied Sciences

May 08, 2023

1st International Workshop on

IoT Security

About the Workshop:

The first international workshop on" Iot Security" was organized to provide a forum for faculty and young researchers to interact with distinguished international speakers and advance knowledge related to internet of thing security.

Accordingly, IoT devices are often connected to the internet and are capable of transmitting and receiving data, making them vulnerable to cyber-attacks. Security concerns in the IoT environment can arise from many factors, including weak passwords, unsecured networks, and unpatched vulnerabilities. The workshop will address extensively these factors.

Speakers:

Dr. Aminu Usman
Associate Head Computer and Data Science York St John University, Yor, UK

Assist. Prof. Dr. Govand Salih Kadir
Computer Engineering department, University of Kurdistan Hewler (UKH), .Erbil, Kurdistan Region, Iraq
