### **THE OBJECTIVES OF THE CONFERENCE**

1-

The main objective of SCOS 2025 conference is to gather researchers, practitioners, and scholars that work in different areas of the dental sciences at all levels from around the world.

### **MAIN RESULTS/OUTCOMES OF THE CONFERENCE**

The event attracted more than 600 participants from across Iraq, reflecting the growing interest and commitment to oral healthcare and research. The theme, "From Evidence to Excellence," highlighted the importance of evidence-based practices in achieving clinical and academic excellence in oral sciences.

A significant highlight of the conference was the international panel discussion titled "A Global Vision on Dentistry." The panel featured four renowned international speakers, who

shared their insights on global advancements in dentistry, discussed innovative practices, and explored strategies for enhancing collaboration across borders. The panel provided a platform for exchanging forward-thinking ideas and fostering dialogue on the future of oral healthcare worldwide.

In addition to the academic sessions, the program featured a vibrant exhibition supported by 18 leading companies, including dental and healthcare industry leaders who sponsored the event. Their contributions showcased the latest innovations, products, and technologies, significantly enriching the conference experience for all attendees.

**THE RECOMMENDATIONS OF THE CONFERENCE (SHOULD BE SENT TO MHE/ GENERAL DIRECTORATE OF RESEARCH AND DEVELOPMENT) also add the Kurdish version to this section**

**1. Advancement in Research and Innovation**

Encourage collaboration between universities, research institutions, and industry stakeholders to promote innovation in oral sciences.

Prioritize funding for groundbreaking research in areas such as oral cancer, periodontal diseases, and dental biomaterials.

**2. Enhancing Public Health Initiatives**

Develop public health campaigns to raise awareness about the importance of oral hygiene and regular dental check-ups.

Implement community-based programs to provide dental care access to underserved populations.

**3. Education and Training**

Update dental education curricula to include the latest advancements in oral sciences and technology.

Promote continuous professional development opportunities for dental practitioners through workshops, seminars, and online courses.

Encourage the use of minimally invasive techniques and evidence-based treatments in clinical practice.
