NATIONAL TISHK PHARMACEUTICAL CONFERENCE (6th NTPC-2026)
Theme: "Sustainable Development Perspectives in Cancer Care: Emerging Global Trends and Therapeutic Advancements."

DATES & VENUE OF THE CONFERENCE: 13-14th APRIL, 2026

Venue: Ibn Sina Hall 400, Faculty of Pharmacy, Tishk International University, Erbil, Iraq.

NAMES & AFFILIATIONS OF THE SPEAKERS

1. **Name of the Speaker: Dr. Reem Abou Assi**, Scientist, Head of the Occupational Safety and Health Unit, Al-Qabas College, Mosul, Iraq. **(Keynote Speaker)**
2. **Dr. Zjwan Mohammed Ismail Housein**, Assistant Professor, Technical Health and Medical College, Department of Medical Laboratory, Erbil Polytechnic University, Erbil, Iraq. **(Keynote Speaker)**
3. **Dr. Nawsherwan Sadiq Mohammad**, Assistant Professor, College of Medicine, Department of Basic Sciences, Hawler Medical University, Erbil, Iraq. **(Keynote Speaker)**
4. **Dr. Ahmad Nawzad Hassan**, Department of Medical Laboratory Technology, Erbil Technical Health & Medical College, Erbil Polytechnic University, Erbil, Iraq. **(Keynote Speaker)**
5. **Dr. Najmaddin Khoshnaw**, Hematologist and clinical researcher, College of Medicine, University of Sulaimani, Iraq. **(Keynote Speaker)**
6. **Dr. Faheem Hayder Potto**, Assistant Professor in the Department of Pharmacology at Imam Abdulrahman Bin Faisal University, KSA. **(Keynote Speaker)**
7. **Dr. Jaafaru Sani Mohammed**, Asst. Prof., Medical Analysis Department, Faculty of Applied Science, TIU, Erbil.
8. **Dr. Subasini Uthirapathy**, Asst. Prof., Pharmacology and Toxicology Department, Faculty of Pharmacy, TIU, Erbil.
9. **Dr. Javed Ahamad**, Assistant Professor, Department of Pharmacognosy, Faculty of Pharmacy, Tishk International University, Erbil, Iraq
10. **Dr. Mohammed Aslam**, Assistant Professor, Department of Pharmaceutics, Faculty of Pharmacy, Tishk International University, Erbil, Iraq
11. **Dr. Ahmad Hamdy Ibrahim**, Assistant Professor, Department of Pharmacy, Tishk International University, Erbil, Iraq.
12. **Dr. Peshawa Shafiq Osw**, Assistant Professor, Department of Pharmacy, Tishk International University, Erbil, Iraq.
13. **Dania Awni Kamal**, Pharmacy Department, Tishk International University, Erbil, Iraq.
14. **Dr. Rojan Arif**, Pharmacy Department, Tishk International University, Erbil, Iraq.
15. **Dr. Shajwan Nanakali**, Pharmacy Department, Tishk International University, Erbil, Iraq.
16. **Dr. Alaa Ameer Mohammad**, Pharmacy Department, Tishk International University, Erbil, Iraq.
17. **Dr. Hazha Omar Othman**, Assistant Professor in the Department of Chemistry, College of Science, Salahaddin University-Erbil, and academic staff in the Pharmacy Department at Tishk International University, Erbil, Iraq.
18. **Dr. Sawsan S. Al-Rawi**, Biology Education Department, Faculty of Education, Tishk International University, Erbil, KRG, Iraq.

20. Dr. Halmat M. Jaafar, Department of Clinical Pharmacy at Hawler Medical University and Department of Clinical Pharmacy, Pharmacy Department, Tishk International University, Erbil, Iraq.

21. Dr. Alan Riyadh Mohammed, Specialist Clinical Pharmacist at Rizgary Teaching Hospital, and Pharmacy Department, Tishk International University, Erbil, Iraq.

NAMES OF THE ORGANIZING AND SPONSORING BODIES

ORGANIZING BODY: Organized by the Pharmacy Department, Faculty of Pharmacy, Tishk International University, Erbil, Iraq

SPONSORING BODIES: Main Sponsor: Mass Group Holdings Ltd. And Sherko Charzat (coffee break)

THE OBJECTIVES OF THE CONFERENCE

NTPC 2026 was a forward-thinking initiative that pushed the boundaries of pharmaceutical science, with a strong emphasis on sustainable development. The conference was designed to achieve the following objectives:

- ✓ **Promote Scientific Exchange and Innovation:**
- ✓ The conference encouraged the sharing of authoritative insights and groundbreaking ideas among leading scientists in both traditional and modern drug discovery, with a strong focus on translational research and therapeutic innovation.
- ✓ **Advanced Cancer Therapeutics for Sustainable Health:**
- ✓ The conference emphasized the transformative impact of advanced cancer therapies in achieving Good Health and Well-Being (SDG-3), while exploring their potential contributions to economic resilience and environmental sustainability.
- ✓ **Catalyze National Scientific Collaboration:**
- The initiative successfully united scientific experts nationwide, shared cutting-edge research findings, fostered interdisciplinary dialogue, and stimulated collaborative efforts that advanced drug development and cancer treatment through collective innovation and cooperation.
- ✓ **Strengthening cross-cultural and regional networks:**
- ✓ The platform offered opportunities to build cross-cultural relationships and regional partnerships, enhanced scientific understanding, and promoted inclusive innovation by fostering collaboration, mutual respect, and knowledge exchange among diverse communities and disciplines.

✓ **Bridge Science and Policy (Partnerships for the Goals (SDG-17)):**

The initiative encouraged inclusive multisectoral collaboration by integrating scientific research, policy development, and community engagement to accelerate therapeutic innovation. It addressed structural inequities and access barriers limiting advanced cancer treatments for marginalized populations, while promoting fair development and equitable allocation strategies. These efforts ensured equal access, guaranteeing that scientific progress translated into meaningful health benefits for all patients.

MAIN RESULTS/OUTCOMES OF THE CONFERENCE

The conference successfully recognized and evaluated emerging therapeutic strategies in cancer treatment and pharmaceutical innovation, providing participants with a comprehensive overview of current advancements. Collaborative networks between academic institutions and the pharmaceutical industry were strengthened, fostering translational research and enhancing opportunities for joint initiatives. Delegates articulated the stages and dynamics of the drug discovery cascade, from target identification to clinical application, thereby clarifying the complex processes involved. Traditional and contemporary approaches in drug discovery were distinguished, with emphasis placed on methodological evolution and the shift toward modern practices. The impact of advanced tools and technologies, including artificial intelligence, high-throughput screening, and molecular modelling, was critically assessed, highlighting their transformative role in drug development. Furthermore, participants explored current trends, innovations, and challenges in drug formulation and targeted drug delivery systems, particularly in relation to cancer therapy, ensuring a forward-looking perspective on future research directions.

THE RECOMMENDATIONS OF THE CONFERENCE (SHOULD BE SENT TO MHE/ GENERAL DIRECTORATE OF RESEARCH AND DEVELOPMENT)

The following recommendations will be of utmost importance:

1. **Strengthening Research and Innovation:** Promote interdisciplinary research on sustainable cancer therapies, integrating molecular biology, pharmacology, and biotechnology to advance eco-friendly and patient-centered treatment approaches.
2. **Integration of Traditional and Modern Practices:** Encourage systematic documentation and scientific validation of regional medicinal plants and natural products with potential anticancer properties, bridging traditional knowledge with modern oncology.
3. **Capacity Building and Academic Collaboration:** Establish strong partnerships between local universities, international research institutions, and cancer care centers to foster knowledge exchange, joint projects, and training programs for young researchers.
4. **Community-Centered Cancer Care:** Develop community-based initiatives that enhance awareness, prevention, and early detection of cancer, with special emphasis on empowering

women and marginalized groups in health education and sustainable caregiving practices.

5. **Policy Development and Advocacy:** Advocate for national policies that support sustainable cancer care models, including equitable access to innovative therapies, ethical clinical trials, and environmentally responsible pharmaceutical production.
6. **Global Networking and Knowledge Sharing:** Facilitate participation in international cancer research networks and conferences to ensure that Kurdish and regional contributions are visible in shaping global therapeutic advancements.
7. **Sustainability in Healthcare Infrastructure:** Encourage investment in green healthcare infrastructure—energy-efficient hospitals, sustainable supply chains, and eco-conscious pharmaceutical manufacturing—to align cancer care with broader sustainable development goals.

These recommendations directly contribute to SDG-3 (Good Health and Well-Being) and SDG-9 (Industry, Innovation, and Infrastructure), ensuring that cancer care evolves in a way that is scientifically advanced, socially equitable, and environmentally sustainable.
